Curtis Introductions

Dorothy S. Rowe. Large tall deep cerise pink about three tints deeper than Pink Radiance. Blooms early. 2.00

Spring Morn. Medium to large blooms, good stems, medium height. A very fine clear flesh pink, without a blotch except for a trace of deeper color. 2.00

Rose Glow. Watermelon pink, medium to large blooms, height medium. 1.50

Color similar to Glowing Rose but blooms later. This is the second watermelon pink we have introduced but we believe they are needed as Wunderkind is often short lived.

Buckeye Red. Tall with large, blooms of medium deep red free from orange. 1.50

Red Crinkles. A deep red, medium size and height. Petals keep their crinkled form to the end. 1.50

Raspberry Queen. Large blooms, tall stiff stems, color crushed raspberry. 1.50

Plant in full light shade.

Glowing Rose. Watermelon pink, large bloom, tall heavy stem. Very early. 1.25

Cutting Poppies

Grown in light shade preferably the north side of a building (with no tree roots) these poppies are beautiful. Planted in the sun or even half shade the colors fade and they only have a cut flower value. Raspberry Queen, Jessie Curtis, and Curtis Giant Flesh Pink belong in this classification.
